Subject Index

Acetabular cup, loose, osteolysis of the ilium associated with a, following total hip arthroplasty, secondary to foreign body reaction to polyethylene and methyl methacrylate (*case report*) 201
Acetabular fracture dislocations, central: An unusual complication of seizures 91
Acro-osteolysis presumably induced by septic shock (*case report*) 43
Adamantinoma, Ewing-like, of the left radial head and neck (*case report*) 61
Adult hip joint, the normal width of the: The relationship to age, sex, and obesity 10
Age, sex, and obesity, the relationship to: The normal width of the adult hip joint 10
Aggressive fibromatosis of the mandible in childhood 154
Amyloid tumor of the sternum as part of a solitary plasmacytoma (*case report*) 53
Aneurysmal bone cyst (ABC) of left scapula with intramural calcified chondroid (*case report*) 57
Aneurysmal bone cyst, secondary, of the frontal bone, osteoblastoma with (*case report*) 276
Angiosarcoma, a benign lesion which may mimic: Histiocytoid hemangioma of bone. Report of a case and review of literature 165
Arthrographic findings, case report with: Recurrent anterior dislocation of the hip 262
Arthropathy, neuropathic, of the sternoclavicular joint, secondary to syringomyelia (*case report*) 113
Arthropathy, progressive, spondyloepiphyseal dysplasia tarda with 13
Arthroplasty, total hip, osteolysis of the ilium associated with a loose acetabular cup following; secondary to foreign body reaction to polyethylene and methyl methacrylate (*case report*) 201
Articular groove, computed tomography demonstration of distal femoral (trochlear): A normal variant . . . 170
Axillary artery producing pseudotumor of the humerus, post-traumatic pseudoaneurysm of the (*case report*) 178
Back pain, low, diagnostic value of bone scintigraphy in patients with 1
Benign giant-cell tumours of bone with pulmonary metastases and favourable prognosis 221
Bone cysts containing silicone particles in bones adjacent to a carpal silastic implant 247
Bone scintigraphy in patients with low back pain, diagnostic value of 1
Brown tumor of the right seventh rib with osteomalacia and secondary hyperparathyroidism (*case report*) . . 47
Cadaver, macerated, radiological and gross pathological abnormalities in a: Fibrodysplasia ossificans progressiva (FOP) (*case report*) 131
Calcified intramural chondroid, aneurysmal bone cyst of

left scapula with (*case report*) 57
Candida infection of a prosthetic shoulder joint 176
Carpal silastic implant, bone cysts containing silicone particles in bones adjacent to a 247
Central acetabular fracture dislocations: An unusual complication of seizures 91
Cervical vertebral transverse process, elongation of the anterior tubercle of a: An unusual variant 265
Cheirolumbar dysostosis: A phenotype of pseudohypoparathyroidism 161
Childhood, aggressive fibromatosis of the mandible in 154
Chondroid, intramural calcified, aneurysmal bone cyst of left scapula with (*case report*) 57
Chondrosarcoma, medullary, radiology of: Preoperative treatment planning 69
Chondrosarcoma of the left humerus with metastases (suggestive of the differentiated chondrosarcoma) to supraclavicular lymph nodes and jejunum at multiple sites (*case report*) 126
Chronic repetitive trauma: A cause of atypical degenerative joint disease 236
Clavicular lytic lesions in fibromatosis colli 34
Complication of seizures, an unusual: Central acetabular fracture dislocations 91
Complications of intertrochanteric rotational osteotomy 258
Compression, spinal cord, hemangioma of the T6 vertebra with a compression fracture, extradural block and (*case report*) 183
Computed tomography demonstration of distal femoral (trochlear) articular groove: A normal variant . . . 170
Computed tomography findings in popliteal cysts . . . 26
Computed tomography of the iliopsoas muscle 107
Congenital kyphosis and subluxation of the thoraco-lumbar spine due to vertebral aplasia 255
Cortical bone erosion, a cause of: Periosteal ganglion 243
Cortical ossifying lipoma of femur (*case report*) 189
Cyst, aneurysmal bone, of left scapula with intramural calcified chondroid (*case report*) 57
Cyst, secondary aneurysmal bone, of the frontal bone, osteoblastoma with (*case report*) 276
Cysts, bone, containing silicone particles in bones adjacent to a carpal silastic implant 247
Cysts, popliteal, computed tomography findings in . . 26
Degeneration, sarcomatous, of Paget disease in the skull 102
Degenerative, atypical, joint disease, a cause of: Chronic repetitive trauma 236
Development, radiology of postnatal skeletal. VIII. Distal tibia and fibula 209
(Developmental anomaly) ossification of both stylohyoid ligaments, considerably larger on the left (*case report*) 273
Developmental disorders of the proximal epiphysis of the hallux 250
Diagnostic value of bone scintigraphy in patients with low back pain 1
"Disappearing" osteochondroma 40
Dislocation and rotation to 180° of the proximal fragment of the capitate; scapho-capitate fracture of the right wrist with (*case report*) 291
Dislocation of the hip, recurrent anterior: Case report with arthrographic findings 262
Dislocations, central acetabular fracture: An unusual complication of seizures 91
Double fat-fluid level: Lipohemarthrosis of the knee associated with suprapatellar plica synovialis 30
Down syndrome (trisomy 21) (*case report*) 192
Dwarfism, Torrance type of lethal neonatal short-limbed platyspondylic 17
Elongation of the anterior tubercle of a cervical vertebral transverse process: An unusual variant 265
Eosinophilic granuloma of bone: Diagnosis and management 227
Eosinophilic granuloma of bone, evolution of: A case report 37
Epiphysis, proximal, of the hallux, developmental disorders of the 250
Erosion, cortical bone, a cause of: Periosteal ganglion 243
Erratum – Case Report 225 207
Evolution of eosinophilic granuloma of bone: A case report 37
Ewing-like adamantinoma of the left radial head and neck (*case report*) 61
Extradural block, compression fracture, and spinal cord compression, hemangioma of the T6 vertebra with a (*case report*) 183
Fat-fluid level, double: Lipohemarthrosis of the knee associated with suprapatellar plica synovialis 30
Femoral, distal, articular groove, computed tomography demonstration of: A normal variant 170
Femur, cortical ossifying lipoma of (*case report*) 189
Femur, fibromyxoma of the (*case report*) 197
Fibrodysplasia ossificans progressiva (FOP): Radiological and gross pathological abnormalities in a macerated cadaver (*case report*) 131
Fibromatosis, aggressive, of the mandible in childhood 154
Fibromatosis colli, lytic clavicular lesions in 34
Fibromyxoma of the femur (*case report*) 197
Fibula and distal tibia. Radiology of postnatal skeletal development 209
Fracture dislocations, central acetabular: An unusual complication of seizures 91
Fracture, scapho-capitate, of the right wrist with dislocation and rotation to 180° of the proximal fragment of the capitate (*case report*) 291
Frontal bone, osteoblastoma with secondary aneurysmal bone cyst of the (*case report*) 276
Ganglion, periosteal: A cause of cortical bone erosion 243
Giant-cell tumours of bone, benign, with pulmonary metastases and favourable prognosis 221
Gout associated with diffuse, idiopathic skeletal hyperostosis (DISH) (*case report*) 117
Granuloma, eosinophilic, of bone: Diagnosis and management 227
Granuloma of bone, eosinophilic, the evolution of: A case report 37
Hallux, developmental disorders of the proximal epiphysis of the 250
Hemangioma, histiocytoid, of bone: A benign lesion which may mimic angiosarcoma. Report of a case and review of literature 165
Hemangioma of the T6 vertebra with a compression fracture, extradural block, and spinal cord compression (*case report*) 183
Hip, arthroplasty, osteolysis of the ilium associated with a loose acetabular cup following; secondary to foreign body reaction to polyethylene and methyl methacrylate (*case report*) 201
Hip joint, adult, the normal width of the: The relationship to age, sex, and obesity 10
Hip, recurrent anterior dislocation of the: Case report with arthrographic findings 262
Histiocytoid hemangioma of bone: A benign lesion which may mimic angiosarcoma. Report of a case and review of literature 165
Hodgkin disease, nodular sclerosing variant, primary form

(*case report*) 287
Humerus, left chondrosarcoma of the, with metastases to supraclavicular lymph nodes and jejunum at multiple sites (*case report*) 126
Humerus, post-traumatic pseudoaneurysm of the axillary artery producing pseudotumor of the (*case report*) 178
Hyperostosis, gout associated with diffuse idiopathic skeletal (*case report*) 117
Hyperostosis, the pattern of spinal and extraspinal, in patients with ossification of the posterior longitudinal ligament and the ligamentum flavum causing myelopathy 79
Hyperparathyroidism of chronic renal failure, the mode of progression of subperiosteal resorption in the . . 157
Hyperparathyroidism, secondary, and osteomalacia, brown tumor of the right seventh rib with (*case report*) 47
Iliopsoas muscle, computed tomography of the 107
Ilium, osteolysis of the, associated with a loose acetabular cup following total hip arthroplasty, secondary to foreign body reaction to polyethylene and methyl methacrylate (*case report*) 201
Implant, carpal silastic, bone cysts containing silicone particles in bones adjacent to a 247
Infection, *Candida*, of a prosthetic shoulder joint . . . 176
Intertrochanteric rotational osteotomy, complications of 258
Intramural calcified chondroid, aneurysmal bone cyst of left scapula with (*case report*) 57
Jejunum and supraclavicular lymph nodes at multiple sites, chondrosarcoma of the left humerus with metastases to (*case report*) 126
Joint disease, a cause of atypical degenerative: Chronic repetitive trauma 236
Knee, lipohemarthrosis of the, associated with suprapatellar plica synovialis: The double fat-fluid level . . . 30
Knee, para-articular osteochondroma of the (*case report*) 121
Kyphosis, congenital, and subluxation of the thoraco-lumbar spine due to vertebral aplasia 255
Leiomyosarcoma in bone: Primary or secondary? A case report and review of the literature 147
Lethal neonatal short-limbed platyspondylic dwarfism, Torrance type of 17
Ligament, posterior longitudinal, and the ligamentum flavum causing myelopathy, the pattern of spinal and extraspinal hyperostosis in patients with ossification of the 79
Lipohemarthrosis of the knee associated with suprapatellar plica synovialis: The double fat-fluid level . . . 30
Lipoma of femur, cortical ossifying (*case report*) 189
Lumbar osteomyelitis, fine needle diagnosis 173
Lymph nodes, supraclavicular, and jejunum at multiple sites, chondrosarcoma of the left humerus with metastases to (*case report*) 126
Lytic clavicular lesions in fibromatosis colli 34
Mandible in childhood, aggressive fibromatosis of the 154
Medullary chondrosarcoma, radiology of: Preoperative treatment planning 69
Metacarpal, radiogrammetry of the: A critical reappraisal 5
Metastases, pulmonary, and favourable prognosis, benign giant-cell tumours of bone with 221
Metastases to supraclavicular lymph nodes and jejunum at multiple sites, chondrosarcoma of the left humerus with (*case report*) 126
Methyl methacrylate and polyethylene, secondary to foreign body reaction to; osteolysis of the ilium associated with a loose acetabular cup following total hip arthroplasty (*case report*) 201
Multicentric osteosarcomata (osteosarcomatosis) (*case report*) 281
Muscle, iliopsoas, computed tomography of the 107
Myelopathy, the pattern of spinal and extraspinal hyperostosis in patients with ossification of the posterior longitudinal ligament and the ligamentum flavum causing 79
Needle, fine, diagnosis in lumbar osteomyelitis 173
Neonatal lethal short-limbed platyspondylic dwarfism, Torrance type of 17
Neuropathic arthropathy of the sternoclavicular joint, secondary to syringomyelia (*case report*) 113
Newborn, unusual osteopathy in a 20
Nodular sclerosing variant, Hodgkin disease, primary form (*case report*) 287
Normal variant: Computed tomography demonstration of distal femoral (trochlear) articular groove 170
Normal width of the adult hip joint: The relationship to age, sex, and obesity 10
Obesity, sex, and age, the relationship to: The normal width of the adult hip joint 10

Obituary – Professor Sir Howard Middlemiss 205
Observer variation in skeletal radiology 86
Ossification of both stylohyoid ligaments, considerably larger on the left (developmental anomaly) (*case report*) 273
Ossification of the posterior longitudinal ligament and the ligamentum flavum causing myelopathy, the pattern of spinal and extraspinal hyperostosis in patients with 79
Ossifying cortical lipoma of femur (*case report*) 189
Osteitis, post-radiation, of the sacrum (*case report*) . . 269
Osteoblastoma with secondary aneurysmal bone cyst of the frontal bone (*case report*) 276
Osteochondroma of the knee, para-articular (*case report*) 121
Osteochondroma, the "disappearing" 40
Osteodystrophies, vascular anomalies in association with – A spectrum 95
Osteolysis of the ilium associated with a loose acetabular cup following total hip arthroplasty, secondary to foreign body reaction to polyethylene and methyl methacrylate (*case report*) 201
Osteomalacia and secondary hyperparathyroidism, brown tumor of the right seventh rib with (*case report*) . . 47
Osteomyelitis, lumbar, fine needle diagnosis in 173
Osteopathy, unusual, in a newborn 20
Osteosarcoma, radiologic imaging of: Role in planning surgical treatment 137
Osteosarcomata, multicentric (osteosarcomatosis) (*case report*) 281
Osteotomy, intertrochanteric rotational, complications of 258
Paget disease in the skull, sarcomatous degeneration of 102
Pain, low back, diagnostic value of bone scintigraphy in patients with 1
Para-articular osteochondroma of the knee (*case report*) 121
Pattern of spinal and extraspinal hyperostosis in patients with ossification of the posterior longitudinal ligament and the ligamentum flavum causing myelopathy . . 79
Periosteal ganglion: A cause of cortical bone erosion . . 243
Planning surgical treatment, role in: Radiologic imaging of osteosarcoma 137
Plasmacytoma, solitary, amyloid tumor of the sternum as part of a (*case report*) 53
Platyspondylic dwarfism, Torrance type of lethal neonatal short-limbed 17
Polyethylene and methyl methacrylate, secondary to foreign body reaction to; osteolysis of the ilium associated with a loose acetabular cup following total hip arthroplasty (*case report*) 201

Popliteal cysts, computed tomography findings in . . . 26
Postnatal skeletal development, radiology of. VIII. Distal tibia and fibula 209
Post-radiation osteitis of the sacrum (*case report*) . . . 269
Post-traumatic pseudoaneurysm of the axillary artery producing pseudotumor of the humerus (*case report*) . . 178
Preoperative treatment planning: Radiology of medullary chondrosarcoma 69
Primary or secondary: Leiomyosarcoma in bone? A case report and review of the literature 147
Prognosis, favourable, and pulmonary metastases, benign giant-cell tumours of bone with 221
Progression of subperiosteal resorption in the hyperparathyroidism of chronic renal failure, the mode of . . 157
Prosthetic shoulder joint, *Candida* infection of a 176
Pseudoaneurysm, post-traumatic, of the axillary artery producing pseudotumor fo the humerus (*case report*) 178
Pseudohypoparathyroidism, a phenotype of: Cheirolumbar dysostosis 161
Pseudotumor of the humerus, post-traumatic pseudoaneurysm of the axillary artery producing (*case report*) 178
Pulmonary metastases and favourable prognosis, benign giant-cell tumours of bone with 221
Radial head and neck, left Ewing-like adamantinoma of the (*case report*) 61
Radiogrammetry of the metacarpal: A critical reappraisal 5
Radiologic imaging of osteosarcoma: Role in planning surgical treatment 137
Radiological and gross pathological abnormalities in a macerated cadaver: Fibrodysplasia ossificans progressiva (FOP) (*case report*) 131
Radiology of medullary chondrosarcoma: Preoperative treatment planning 69
Radiology of postnatal skeletal development. VIII. Distal tibia and fibula 209
Radiology, skeletal, observer variation in 86
Recurrent anterior dislocation of the hip: Case report with arthrographic findings 262
Renal failure, chronic, the mode of progression of subperiosteal resorption in the hyperparathyroidism of . . 157
Repetitive chronic trauma: A cause of atypical degenerative joint disease 236
Rib, right seventh, brown tumor of the, with osteomalacia and secondary hyperparathyroidism (*case report*) . . 47
Rotation to 180° and dislocation of the proximal fragment of the capitate; scapho-capitate fracture of the right wrist with (*case report*) 291
Sacrum, post-radiation osteitis of the (*case report*) . . . 269
Sarcomatous degeneration of Paget disease in the skull 102
Scapho-capitate fracture of the right wrist with dislocation and rotation to 180° of the proximal fragment of the capitate (*case report*) 291
Scapula, aneurysmal bone cyst of left, with intramural calcified chondroid (*case report*) 57
Scintigraphy, bone, in patients with low back pain, diagnostic value of 1
Sclerosing, nodular, variant, Hodgkin disease, primary form (*case report*) 287
Secondary or primary: Leiomyosarcoma in bone? A case report and review of the literature 147
Seizures, an ususual complication of: Central acetabular fracture dislocations 91
Septic shock, acro-osteolysis presumably induced by (*case report*) 43
Sex, age, and obesity, the relationship to: The normal width of the adult hip joint 10
Shock, septic, acro-osteolysis presumably induced by (*case report*) 43
Short-limbed lethal neonatal platyspondylic dwarfism, Torrance type of 17
Shoulder joint, prosthetic, *Candida* infection of a . . . 176
Silicone particles, bone cysts containing, in bones adjacent to a carpal silastic implant 247
Skeletal development, radiology of postnatal. VIII. Distal tibia and fibula 209
Skeletal radiology, observer variation in 86
Skull, sarcomatous degeneration of Paget disease in the 102
Spinal and extraspinal hyperostosis, the pattern of, in patients with ossification of the posterior longitudinal ligament and the ligamentum flavum causing myelopathy 79
Spinal cord compression, hemangioma of the T6 vertebra with a compression fracture, extradural block and (*case report*) 183
Spine, thoraco-lumbar, congenital kyphosis and subluxation of the, due to vertebral aplasia 255
Spondyloepiphyseal dysplasia tarda with progressive arthropathy 13
Sternoclavicular joint, neuropathic arthropathy of the, secondary to syringomyelia (*case report*) 113
Sternum, amyloid tumor of the, as part of a solitary plasmacytoma (*case report*) 53
Stylohyoid ligaments, ossification of both, considerably larger on the left (developmental anomaly) (*case report*) 273
Subluxation and congenital kyphosis of the thoraco-lumbar spine due to vertebral aplasia 255
Subperiosteal resorption in the hyperparathyroidism of chronic renal failure, the mode of progression . . . 157
Suprapatellar plica synovialis, lipohemarthrosis of the knee associated with: The double fat-fluid level . . 30
Surgical treatment, role in planning: Radiologic imaging of osteosarcoma 137
Synovialis, suprapatellar plica, lipohemarthrosis of the knee associated with: The double fat-fluid level . . 30
Syringomyelia, neuropathic arthropathy of the sternoclavicular joint, secondary to (*case report*) 113
Tibia, distal, and fibula. Radiology of postnatal skeletal development 209
Torrance type of lethal neonatal short-limbed platyspondylic dwarfism 17
Trauma, chronic repetitive: A cause of atypical degenerative joint disease 236
Trisomy 21, Down syndrome (*case report*) 192
Tubercle, anterior, of a cervical vertebral transverse process, elongation of the: An unusual variant 265
Tumor, amyloid, of the sternum as part of a solitary plasmacytoma (*case report*) 53
Tumor, brown, of the right seventh rib with osteomalacia and secondary hyperparathyroidism (*case report*) . . 47
Tumours of bone, benign giant-cell, with pulmonary metastases and favourable prognosis 221
Unusual osteopathy in a newborn 20
Variation, observer, in skeletal radiology 86
Vascular anomalies in association with osteodystrophies – A spectrum 95
Vertebra, T6, with a compression fracture, extradural block, and spinal cord compression, hemangioma of the (*case report*) 183
Vertebral aplasia, congenital kyphosis and subluxation of the thoraco-lumbar spine due to 255
Wrist, scapho-capitate fracture of the right, with dislocation and rotation to 180° of the proximal fragment of the capitate (*case report*) 291
